

The design of the MDI-HYB is inspired by the integration of two of our most popular islands to form a single unit. Guaranteed to stand out and make a statement in any store, the unique Hybrid is truly a one of a kind merchandiser. The MDI-HYB family of merchandisers is suitable for cheese, sandwiches, salads, fruit and beverage applications.

Standard Features:

Architecture:

- All welded rigid frame
- CFC-free foam injected seamless basin
- NSF leveler legs
- Radius end-caps w/ bubble center sections

Mechanical:

- High efficiency refrigeration system w/ copper tube coils
- Energy efficient fans
- 1 1/2" drains w/ traps
- Perimeter air discharge
- Thermometer
- Ready for remote refrigeration system with:
 - Expansion valve - specify refrigerant
 - Temperature sensor - specify
 - Liquid line hand valve

Interior:

- Black interior
- Removable base display deck with product stop
- Canopy lighting

Exterior:

- Standard color finish
- Tempered glass or acrylic air dam
- Thermoformed ABS canopy

Options:

- Aluminum canopy
- Consult factory on alternative case controls
- Thermostat w/ defrost control & suction line solenoid
- Liquid-suction heat exchanger
- Specify for use with secondary coolant systems
- LED lighting - specify location(s)
- Interior stainless steel finish
- Exterior stainless steel, premium color, or laminate finish
- Exterior down light
- Cart bumper - specify size
- Stainless steel, laminate, solid surface, or painted canopy
- Alternative case heights, lengths, & options - consult factory

Self-Contained Options: (may increase case height)

- Condensing unit
- Electric condensate dissipator
- Digital temperature and defrost controls
- Heavy duty casters
